

## Discover ALEBA

ALEBA is active in all sectors. Since it was founded in 1918, ALEBA has been a **neutral union**, free from political pressure. It guarantees its **total independence** through its funding, which is based exclusively on its members' subscriptions.

ALEBA's primary objective is to improve the working conditions, social benefits and general well-being of workers in Luxembourg.

We do this through **collective bargaining**, legal advice and social initiatives. We also play a crucial role in shaping labour laws and regulations in Luxembourg through our **elected representatives at the Chambre des Salariés (CSL)**.

For more information,  
visit our website:
